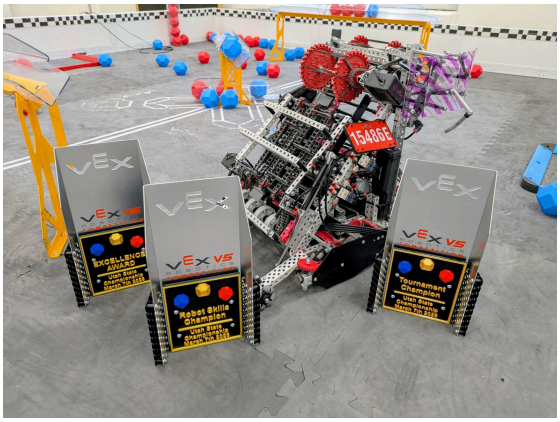
Help our teams get to Worlds

Who are we

We are Vista Robotics. This year Vista school had 9 VEX V5 Robotics Competition teams. Vex is the largest and fastest growing competitive robotics program in the world with over 20,000 teams in over 50 countries.

What we do

Each year teams will design, build and program a robot to compete in a challenging game. This year's game is called “Push back” where robots pick up and score blocks on goals during a 15 second programmed period and 1:45 driver control period.



This season we competed in six competitions, including the Utah State Championships where our High school team and two middle school teams were crowned state champs, and qualified for the World Championships!

What we need

We are in need of sponsors and donors to help us raise the funds to get to St. Louis for the VEX World Robotics Championships, April 21 - April 27th. To get our teams to worlds, we will need to raise $5,000 per team for:

- Flights ground transportation
- Hotel and Food
- Registration fees and equipment

What we can do for you

For six days, thousands of people will see our generous sponsor’s logos on our team shirts and team sponsor banner.
We will also include your logos on our Vista robotics sponsor page online. We are a 501(c)(3) organization.

Gold Sponsor - $1000+
- Large logo on banner
- Large logo on t-shirt
- Large logo on web and social media

Silver Sponsor - $500 - $999
- Small Logo on banner
- Small Logo on t-shirts
- Small Logo on web and social media

Bronze Sponsor - $250-$499
- Logo on banner
- Logo on web and social media

Friend of Vista Robotics - $10-$249

Please consider supporting these students as they go and represent the state of Utah and southern Utah in this world wide robotics competition. This is the 7th year in a row that Vista has had teams qualify for the World Championships!
